

# CHURCH LANE POST

A truly local post delivered free by Steve Brine and local campaigner Susie Evershed

# Church Lane the work goes on

**30mph limit in place but signage next and good news on resurfacing!**

The Prospective Conservative MP for Winchester, **STEVE BRINE**, has welcomed the installation (at last!) of the new 30mph speed limit for Church Lane.

Residents will know the new limit was legally applied to the road this week but this is only **PART ONE** and the campaign goes on to make Church Lane safer.

Steve says; "This has been a painfully slow process but everyone has been extremely patient and the important thing is we now have the 30 limit in place. The work doesn't stop here however, we need to ensure signs can be clearly seen by motorists at **BOTH ENDS of the 30 zone** because at the moment there is nothing for those approaching off the roundabout on Main Road and that threatens to make matters worse.

The other issue which has gone hand in hand with the Church Lane **SPEED** limit is the **RESURFACING** work.

Steve adds; "I am pleased we were able to **SECURE** its inclusion in the works programme for 08/09. This didn't involve political posturing just quiet determined work behind the scenes and some heavy lobbying of the County Council - alongside local residents. This will see resurfacing take place **IN JANUARY 2009.**"

The *Church Lane Post*, from June 2007, when the new 30 limit was agreed by Hants County Council. A long slog to here but there is still work to do says Steve Brine!
