### PMQs is back!

Several times each year I hold a ballot where constituents can obtain tickets for the weekly big event. Parliament's Covid restrictions have now been removed and I recently held my first ballot in almost two years. See dates (and sign up) at [www.stevebrine.com/PMQs](http://www.stevebrine.com/PMQs) and in local press.

## AND PARLIAMENT IS OPEN TO YOU

Tours of the iconic Palace of Westminster are available (free of charge during the week) courtesy of my office. You can come as an individual, with a local community group or your school/college. And look out for contact from me, in the months ahead, about an exciting new **Visit Westminster** programme for your neighbourhood; including Q&A with yours truly.

Itchen Abbas School visited earlier this year; the first to do so post Covid-19.

TV star Tommy Jessop (and Mum Jane) dropped in to support one of the hundreds of events Parliament hosts each month.

## Annual Report

2021/22

Working hard for Winchester, Alresford, Kings Worthy, Chandler's Ford and surrounding villages

### Dear Resident,

This year's Annual Report comes at a time of uncertainty and worry for many as the cost of living squeeze continues.

The cost of energy – for our homes, our cars and our businesses – sits at the heart of this but rising interest rates, as the Bank of England seeks to control inflation, come a close second.

For those approaching the end of fixed-term deals especially, this is a moment of concern I know.

Government is not a by-stander in this. We are delivering the biggest net cut to personal taxes in over a quarter of a century helping us keep more of our money. And there's our £37 billion package of support that includes the rebate on energy bills and council tax plus a huge boost to the Household Support Fund so local authorities can help those on the lowest incomes with their food and utility costs.

It is impossible for any government to solve every problem, but our priority is to help those who are struggling now and I will go on ensuring this area is heard in the corridors of power.

I hope you find this Annual Report of interest (remember it is just a snapshot) and will note that casework continues to be the bedrock of my work as our MP. If you or someone you know needs my help, please get in touch.

Yours,

*Steve Brine*

## PRIORITY NHS

Chatting with staff on the surgical unit and, inset, with Health Minister (Ed Argar MP) on a recent visit.

I regularly visit the Royal Hampshire County Hospital and was in theatre recently to see for myself the progress being made on reducing the elective care backlog - and on improvements to maternity services.

Our trust saw its waiting list grow significantly over the pandemic, but is working systematically to get people the treatments they need. Staff at the RHCH did incredible things throughout the pandemic and deserve our thanks as well as support. More: [stevebrine.com/prioritynhs](http://stevebrine.com/prioritynhs)

## VISITING YOU

One of the best aspects of my job is visiting local schools and community groups to chat with young people.

I visit schools across the constituency all the time to meet with Headteachers and Governors, but we always make time to have a Q&A with the children and/or their eco-teams.

This past year has been a little curtailed by Covid but, one way or another, I have visited St Faith's, Compton Primary, Harestock School, Chandler's Ford Infants - and Scout Group - Kings School, Twyford St Mary's, Sparsholt College and St Peter's. And I've taken politics classes at Winchester College, Barton Peveril and Peter Symonds!

Addressing assembly at St Faith's and (inset) chatting with the 3rd Chandler's Ford Scout Group.

## WESTMINSTER REPORT

Dominated by Covid for almost two years, Parliament has remained extremely busy with an important and wide-ranging number of bills becoming law before the end of session in May. I have continued to

represent constituents on a number of matters, especially those that most effect your day-to-day lives such as the cost of living, driving licenses, passports and travel.

The House of Commons has also passed numerous sanctions on Russian oligarchs in the wake of Putin's war in Ukraine. I was sanctioned by Moscow for my part in that!

### VISITING AFRICA

My interest in global health policy remains undimmed and I recently took part in a four-day study trip to Uganda which focussed on reproductive health and family planning in a country where the population is ballooning, and maternal mortality is among the highest in the world. Our cross-party group travelled to Kampala and the rural north in Luwero and Kabelega.

### SELECT COMMITTEE

In Parliament I serve as a member of the high-profile Digital, Culture, Media and Sport Committee and we've had a busy year!

The past 12-months have included work on influencer culture, forthcoming online harms legislation, the future of Channel 4 and racism in cricket. We recently visited South Korea as part of a major inquiry we are undertaking into how we promote Britain abroad as the world opens up after Covid. I also met the K-Pop sensation that is Blackpink! ## ASK ALOK

ASKtheMINISTER returned with COP26 President, Alok Sharma MP, focussing on the climate crisis and the Government's 'net zero' strategy.

Some of us may have different priorities, and even differences of opinion on how to get there, but we all care about the climate and achieving a sensible, planned, transition to net zero which is central to our mission as a Government.

Over 120 of you attended the event at St Paul's Church about the landmark conference held last year in Glasgow including a number of school children from across Winchester & Chandler's Ford.
